Celebrating
10 Years of Community

Join us as we celebrate 10 years of community and collaborations with a day of talks and festivities.

Across three live stages in our atmospheric courtyard, the program explores some of the questions shaping the next decade:

- **Can nature become better business than extraction?**
- **Is the construction industry in danger or in flow?**
- **How do we navigate the AI revolution?**
- **What happens when we stop fearing the future?**

Throughout the afternoon, founders, architects, futurists and urban thinkers take the stage.

As the conversations continue, the courtyard gradually transforms into a summer gathering with music, drinks, food and long-table conversations under the Copenhagen evening sky.

Everyone is welcome. Sign-up is mandatory.
